SUBJECT: Pacific Airmotive Corporation - Suspected
Subsurface Discharge - Aviation Jet Fuel

Dear Mr. Lewis,

With reference to our telephone conversation Tuesday, October 23, 1984, 12:20 P.M., P.S.T. regarding the above subject suspected accidental discharge. This letter constitutes written notification in accordance with State and County requirements.

It is my understanding, based upon our conversation that this was adequate notice with your office contacting the City of Burbank, Office of Emergency Services, Department of Health Services and the County Engineer.

We have contracted for technical support service from Kennedy/Jenks Engineers of San Francisco, and discussed the initial approach to identifying the extent of the discharge with their Mr. Thomas W. Kalinowski and your Mr. David A. Bacharowski, Monday, October 29, 1984.

During the meeting a site review was conducted with Mr. Kalinowski and Mr. Bacharowski and the discharge appeared localized to the area adjacent to the pump house.
